13.8. Strifor and its subsidiaries, marketing partners and agents disclaim any and all liability resulting from or related to any breach of internet security or disruption, distortions or delays of Customer's connections to the internet, due to any reason.

16. Market Abuse And Manipulation

16.1. Prohibition on Arbitrage and Manipulation

1. Strifor does not permit the practice of arbitrage when trading and strictly forbids any form of manipulation of its prices, execution, and platform or making transactions based on errors, omissions or misquotes on the Strifor Trade platform.

2. Price latency, connectivity delays, and price feed errors sometimes create a situation where the prices displayed do not accurately reflect market rates. The concept of arbitrage and "scalping", or taking advantage of these Internet delays, cannot exist in an OTC market where the client is buying or selling directly from the market maker.

3. Any transactions that rely on price latency or price feed errors may be subject to intervention which includes the right to void any transactions which Strifor has determined to be a result of any of these practices, revocation of profits, widening of spreads, block of trading and any other necessary corrections or adjustments on the account without prior notice.

4. If Strifor suspects or has reason to believe that Customer has abused the terms and conditions by hedging positions internally (using other trading accounts held with Strifor) or externally (using other trading accounts held with other brokers),

Strifor reserves the right to cancel any trades or profits associated with Customer's account(s).

16.2. Market Abuse

1. Strifor may hedge our liability to you by opening analogous positions with other institutions or in the underlying market. The result of our doing this is that when you trade with us your trades can, through our hedging, exert a distorting influence on the underlying market for that index, in addition to the impact that it may have on our own prices. This creates a possibility of market abuse.

2. Customer represents and warrants, and agrees that each such representation and warranty is deemed repeated each time Customer opens or closes a position that:

(a) Customer will not place and has not placed a trade with us relating to a particular index or any other CFD price if to do so would result in Customer, or others with whom Customer is acting in concert together, having an exposure to the price of the underlying financial instrument which can create a situation of market abuse.

This exposure can be equal to or exceeding the amount of a declarable interest in the relevant financial instrument. For this purpose, the level of a declarable interest will be the prevailing level at the material time, set by law or by the stock exchange(s) or other exchange upon which the underlying financial instrument is traded; and

(b) Customer will not place and has not placed a trade with us in connection with:

(i) a placing, issue, distribution or other analogous event;

(ii) an offer, take over, merger or other analogous event; or

(iii) any other corporate finance style activity, in which Customer is involved or otherwise interested; and

(c) Customer will not place or close a position and Customer will not place an order that contravenes any primary or secondary legislation or other law against insider dealing or market manipulation. Customer agrees that Strifor may proceed on the basis that when Customer opens or closes a position or places an order on a share price, Customer may be treated as dealing in securities within the meaning of the relevant statutes or regulations.

In the event that (a) Customer places or closes any trade or places an order in breach of the representations and warranties given, or Strifor has reasonable grounds for suspecting that Customer may have done so, Strifor may at our absolute discretion and without being under any obligation to inform Customer of our reason for doing so close that trade and any other trade or trades that you may have open at the time, if applicable and also at our absolute discretion cancel any trades or profits associated with Customer's account(s).

3. Strifor may hedge our liability to you by opening analogous positions with other institutions or in the underlying market. The result of our doing this is that when you trade with us your trades can, through our hedging, exert a distorting influence on the underlying market for that index, in addition to the impact that it may have on our own prices. This creates a possibility of market abuse.

4. Customer represents and warrants, and agrees that each such representation and warranty is deemed repeated each time Customer opens or closes a position that:

(a) Customer will not place and has not placed a trade with us relating to a particular index or any other CFD price if to do so would result in Customer, or others with whom Customer is acting in concert together, having an exposure to the price of the underlying financial instrument which can create a situation of market abuse.

This exposure can be equal to or exceeding the amount of a declarable interest in the relevant financial instrument. For this purpose, the level of a declarable interest will be the prevailing level at the material time, set by law or by the stock exchange(s) or other exchange upon which the underlying financial instrument is traded; and

(b) Customer will not place and has not placed a trade with us in connection with:

(i) a placing, issue, distribution or other analogous event;

(ii) an offer, take over, merger or other analogous event; or

(iii) any other corporate finance style activity, in which Customer is involved or otherwise interested; and

(c) Customer will not place or close a position and Customer will not place an order that contravenes any primary or secondary legislation or other law against insider dealing or market manipulation. Customer agrees that Strifor may proceed on the basis that when Customer opens or closes a position or places an order on a share price, Customer may be treated as dealing in securities within the meaning of the relevant statutes or regulations.

In the event that (a) Customer places or closes any trade or places an order in breach of the representations and warranties given, or Strifor has reasonable grounds for suspecting that Customer may have done so, Strifor may at our absolute discretion and without being under any obligation to inform Customer of our reason for doing so close that trade and any other trade or trades that you may have open at the time, if applicable and also at our absolute discretion cancel any trades or profits associated with Customer's account(s).

5. Customer acknowledges that trade are speculative arrangements and Customer agrees that Customer will not enter into any transactions with us in connection with any corporate finance style activity.

6. Customer acknowledges that it would be improper for Customer to deal in the underlying market if the sole purpose of such a transaction was to impact on our bid or offer prices, and Customer agrees not to conduct any such transactions.

17. Execution of orders, stop and limits

17.1. Strifor will use commercially reasonable efforts to complete all orders which it may, in its sole discretion, choose to accept in accordance with the oral or written or computer instructions of Customer.

17.4. Strifor may, in its sole discretion, close the transaction when the price quoted by Strifor on the trading platform equals the price accepted by Strifor for such an order.

17.5. Customer acknowledges and agrees that Strifor shall not be obligated to close a transaction which does not otherwise comply with any other limitations agreed upon with respect to such transaction.

17.6. Customer acknowledges and agrees that due to market volatility and factors beyond Strifor's control, Strifor cannot guarantee that a Close at Loss order will be executed at the level specified in Customer's order. In such an event, Strifor will close the transaction at the next best price.

17.7. If, before Customer's "Limit Order" offer to open or close a transaction is accepted by Strifor, Strifor's quote moves to Customer's advantage (for example, if the price goes down as Customer buys or the price goes up as Customer sells) Customer agrees that Strifor will execute the closing transaction at the Customer's specified price and not better. Customer agrees that Strifor can retain such price movement for its own account.

17.8. Customer is aware that a part of Strifor's revenues derives from the spreads on each transaction. The spread is the difference between the bid & the ask price of the

price quote on a transaction. Therefore, in case the fair market price reduces Strifor's spread in a specific transaction, Strifor may, at its sole discretion, choose not to execute such transaction, in which case Strifor may send Customer an amended quote for his consideration. Strifor may complete a transaction at its sole discretion in case the fair market price does not affect Strifor spread from the transaction and / or increases it.
